

# Playlist Management API

*Team 7 - IDP*

**CARLOS HENRIQUE MAGALHÃES**

# *What does the API?:*

- ▶ The project manages song playlist;
- ▶ This project consumes the API “LastFm” and through it I can add songs to my database, so I can create playlists with these songs.

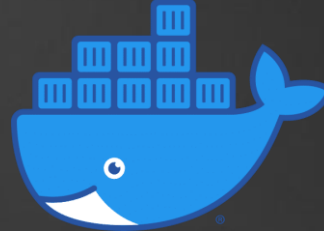

About Last.fm:

It is a music search API that contains a large database.

# *Some tools used in the project:*

- ▶ JAVA 11;
- ▶ IDE: IntelliJ;
- ▶ Framework: Spring;
- ▶ Maven;
- ▶ Postman;
- ▶ Docker;
- ▶ Junit;
- ▶ Swagger;
- ▶ UML: Draw.io;
- ▶ MySql
- ▶ DBeaver;
